### Madera County 1% Manual Tally

Per Elections Code Section 15360, 1% of precincts must be hand tallied to determine that the voting system is reading and tabulating votes correctly. To determine 1% of the precincts, divide the total number of precincts including mail ballot precincts, by 100. For June, 2008, there were 109 precincts, which means that 1.09 or 2 precincts must be fully counted. Additionally, one precinct must be counted for each contest that is on the ballot. As such, additional precincts are randomly selected for each contest that is not included in the initial count. All precincts are randomly selected by draw. For June 3, 2008, 4 precincts were required to cover all contests. All four of the precincts were fully tallied (all contests). All votes cast in those precincts were tallied including Vote-By-Mail ballots and Precinct Ballots.

#### Precinct 1004

Vote by Mail Ballots: Balanced on first pass.  
Precinct Ballots: Vote by Mail precinct, no Precinct ballots to tally.

#### Precinct 2000

Vote by Mail Ballots: Balanced on first pass.  
Precinct Ballots: Vote by Mail precinct, no Precinct ballots to tally.

#### Precinct 3203

Vote by Mail Ballots: Proposition 98 and Recall Question for Senate District 12 did not balance. Manual tally board read 1 more vote than the card reader. It was determined that ballot was marked with wrong marking device and votes were not seen by the reader. Ballot was duplicated and vote was tabulated during official canvass.  
Precinct Ballots: Balanced on first pass.

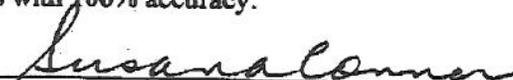

#### Precinct 4204

Vote by Mail Ballots: All contests contained on ballot card did not balance. Manual tally board read 1 more vote per contest than the card reader. It was determined that a card was marked using the wrong marking device and the votes contained on the card were not seen by the card reader. Ballot was duplicated and votes were tabulated during official canvass.  
Precinct Ballots: Balanced on first pass.

All ballots cast on e-Slate electronic voting equipment were duplicated onto Mark-a-Vote paper ballots and tabulated with the precinct ballots upon final certification during the canvass.

In the end, our machine tally matched the hand counts with 100% accuracy.

Dated this 13<sup>th</sup> day of June, 2008.
