**Report of 1 Percent Manual Tally**  
**November 4, 2008 Consolidated General Election**

Per California Elections Code Section 15360, 1% of precincts must be hand tallied to determine the voting system is reading and tabulating votes correctly. To determine 1% of the voting precincts, divide the total number of voting precincts, by 100. For the above stated election, there were 159 precincts, which mean that 1.59 or 2 voting precincts must be fully counted. Additionally, one precinct must be hand counted for each contest that was not included in the initial count. All precincts are randomly selected by draw. For November 4, 2008, 16 voting precincts were required to cover all contests. All 16 of the precincts were fully tallied (all contests). All votes cast in those precincts were tallied including vote by mail and precinct ballots.
