

Post-Election Manual Tally  
(E.C. Sections 336.5 and 15360)

Presidential General Election – November 4, 2008

**Section 336.5** – "One percent manual tally" is the public process of manually tallying votes in 1 percent of the precincts, selected at random by the elections official, and in one precinct for each race not included in the randomly selected precincts. This procedure is conducted during the official canvass to verify the accuracy of the automated count.

**Section 15360** – During the official canvass of every election in which a voting system is used, the official conducting the election shall conduct a public manual tally of the ballots tabulated by those devices, including vote by mail voters' ballots, cast in 1 percent of the precincts chosen at random by the elections official. If 1 percent of the precincts are less than one whole precinct, the tally shall be conducted in one precinct chosen at random by the elections official. The elections official shall manually count one additional precinct, for each race not included in the initial group of randomly selected precincts. The manual tally shall apply only to the race not previously counted. Additional precincts for the manual tally may be selected at the discretion of the elections official.

In addition to the 1 percent manual tally, Los Angeles County must conduct a manual tally of one randomly selected precinct for each System-card reader used in the Election Night Tally that was not represented in the initial random sample. The manual tally shall apply to contests for the entire ballot. Additional manual tally must be conducted of randomly selected 10% of the precincts for contests where the margin of victory is less than 0.5%. The manual tally shall apply only to the contest, not the entire ballot.

PEMT Contests with Margin Of Victory (MOV) less than 0.5%

**0027** – Acton- Agua Dulce Unified School Measure CF

**2073** – Redondo Beach City Measure EE

**2249** – 19<sup>th</sup> Senate District

**Initial Random:** Serial numbered drawing tickets 0001– 4883 representing every election precinct were placed inside rotating drum, and precincts were randomly selected by public observers. Drum was rotated after each drawing. Sixty-one (61) contests were not represented in initial 1% random selection, and thirty-three (33) additional precincts were selected for contest inclusion, pursuant to 15360 (a), includes \*3 contests with MOV = LT 0.5%.

**Additional System-Readers:** Serial numbered paper slips for precincts processed on four (4) System-Readers (**SR 3-2, 5-1, 6-1, 8-1**) not represented in initial 1% random selection were placed in separate boxes labeled for each System-Reader, and additional precincts were randomly selected by public observer.

**PEMT Contest Escalation:** Serial numbered paper slips for precincts were placed in separate boxes labeled for three (3) contests (19<sup>th</sup> Senate District; Acton-Agua Dulce Unified School District, Measure CF; Redondo Beach City, Measure EE), and slips for required % were randomly selected by public observers or Election Official representatives in the absence of public observers.

**Post-Election Tally Audit Summary  
November 4, 2008 Presidential General Election (continued)**

**Ballot Types:** Optical Scan

**Contest Types:** Single winner (vote for one candidate or yes or no for measure); and multi-winners (vote more than 1)

| <b>Number contests tallied?</b>  | 2,874   | PCT = 1,403   | VBM = 1,471   |
| <b>Number ballots tallied?</b>   | 103,718 | PCT = 85,680  | VBM = 18,038  |
| <b>Number votes tallied?</b>   | 772,313 | PCT = 647,621 | VBM = 124,692 |
| <b>Categories of ballots:</b> Blank ballots = 0 Spoiled/Voided ballots = 4 |         |               |               |
| Cancelled/Invalidated ballots = (NA) Misfiled/Interfiled ballots = 38      |         |               |               |

**Resources used to complete the manual tally?**

Tally boards consisted of three (3) people, one (1) caller and two (2) talliers. Refer to **\*Manual Tally Cost Spreadsheet\*** document for itemized costs.

|                                |               |
|--------------------------------|---------------|
| <b>Number of Tally Boards:</b> | 20 (60 Staff) |
| <b>Recap Staff:</b>            | 7             |
| <b>Quality Control Staff:</b>  | 10            |
| <b>Supervisors/Assistants:</b> | 9             |

**Number public observers present on average?** Four (4) for initial random selection process; one (1) observer for additional random selections, and during daily manual tally process

**Manual Tally vs. Computer Tally Results:**

**Ballots Cast:** Computer Count = 103,715  
Hand Count = 103,718      Difference = +3

**Votes Cast:** Computer Count = 771,265  
Hand Count = 772,313      Difference = +1048

Majority of reported variances are due to voided/misfiled precinct ballots or missing ballots interfiled with other precincts. Corrective action in such cases were to remove any voided/misfiled ballots from stack; locate missing ballots, delete/reprocess precincts so counts are properly recorded. These variances, although reported, are not attributable to System Card Reader miscount for purposes of PEMT contest escalation or MTS Card Reader Verification.

**Post-Election Tally Audit Summary  
November 4, 2008 Presidential General Election (continued)**

Variances due to incorrectly or incompletely filled bubbles or smeared ink-marked ballots and vote markings were enhanced, duplicated for counting utilizing ballot duplication procedures, Uniform Vote Counting standards.

***PEMT Contest Escalation:*** In accordance with Emergency Regulations Post Election Manual Tally (PEMT) was conducted on randomly selected precincts for three (3) contests with MOV less than 0.5%. A public random drawing of 10% precincts for each contest was conducted resulting in 11 precincts being selected and manually tallied, followed by PEMT escalation consisting of an additional 22 precincts. Three precincts for contests were also included as part of additional contests selection, Analysis of ballots cast in relation to contest variances percentages was completed, and a 100% manual tally instead of 5% incremental random selection was conducted for the remaining seventy-four (74) precincts.

***MTS Card Reader Verification:*** A 100% manual tally was conducted for three (3) contests with margin of victory (MOV) less than 0.5% and variance percentages = 10% (1/10) of overall margin of victory. Ballots for five precincts were deleted and reprocessed on different system-card readers prior to election certification.

## Secretary of State Post-Election Manual Tally Log

---

### Ballots Cast

**A = (+)** differences – Manual ballot count **greater than** computer count occurs when more than one ballot is processed through a System/Reader at the same time, counting two or more ballot cards as one. Ballots are recounted by a different tally board to verify # of ballots. If re-verified count is **greater than** computer count, ballots are reprocessed through a different System/Reader; and new precinct tally sheets are produced with corrected counts.

**B = (-)** differences – Manual ballot count **less than** computer count occurs when one ballot is processed through a System/Reader twice/multiple times, counting the same ballot more than once, when voided ballots or misfiled ballots from a different precinct are processed through a System/Reader, or if ballots were interfiled with another precinct. Ballots are recounted by a different tally board to verify # of ballots. Voided ballots are removed, misfiled or missing ballots are located and filed with correct precinct for reprocessing through a different System/Reader; and new precinct tally sheets are produced with corrected counts.

### Votes Cast

**1 = (+)** differences – Manual vote count **greater than** computer count occurs when more than one ballot is processed through System/Reader at the same time, or ballots with off-center or non-machine readable votes are processed through a System/Reader. Contest votes are recounted by a different tally board to verify # of votes. Ballots are examined by Supervisor and valid votes where clear voter intent can be determined are enhanced or duplicated for reprocessing, pursuant to Uniform Vote Counting Standards.

**2 = (-)** differences – Manual vote count **less than** computer count occurs when same ballot is read by System/Reader more than once, when “blank” non-voted ballots, “voided” ballots with invalid votes, “ink smeared” ballots with indistinguishable votes, or misfiled ballots from a different precinct are processed through a System/Reader, or if ballots were interfiled with another precinct. Contest votes are recounted by a different tally board to verify # of votes. Voided ballots are removed, and misfiled or missing ballots are located and filed with correct precinct. Ballots are examined by Supervisor and valid votes where clear voter intent can be determined are enhanced or duplicated for reprocessing, pursuant to Uniform Vote Counting Standards.

### Over Votes and Under Votes

**C = (+) or (-)** differences – Occurs when a voter casts votes for more candidates than the allowable number to be elected to an office; or casts both “Yes’ and “No’ vote for a ballot measure; and vote will not count for the contest.

**D = (+) or (-)** differences – Occurs when a voter does not cast a vote for a specific contest or ballot measure; or when multiple votes are permitted (such as, “vote for no more than three” ) and a voter casts fewer votes than the maximum number allowed.

**NA = Zero (+) or (-)** Differences – Manual ballot count and computer count is the same. No corrective action is required.

Manual tally count based on visual inspection of actual ballots takes precedence, when final supervisory examination review determines that ballot or vote count variances are irreconcilable after appropriate corrective action has been taken.
