### Madera County 1% Manual Tally

Per Elections Code Section 15360, 1% of precincts must be hand tallied to determine that the voting system is reading and tabulating votes correctly. To determine 1% of the precincts, divide the total number of precincts including mail ballot precincts, by 100. For May, 2009, there were 81 precincts, which means that .81 or 1 precinct must be fully counted. Additionally, one precinct must be counted for each contest that is on the ballot. As such, additional precincts are randomly selected for each contest that is not included in the initial count. Madera County also has a policy of tallying a precinct from each of the supervisorial districts. All precincts are randomly selected by computer generation. For May, 2009, 5 precincts were required to catch all contest and all supervisorial districts. All five of the precincts were fully tallied (all contests). All votes cast in those precincts were tallied including Vote-By-Mail ballots and Precinct Ballots.

#### Precinct 1515

Vote by Mail Ballots: Did not balance on first pass. After review of ballot cards, it was determined that voters used the incorrect marking device and the marks were not read by the card readers. Said ballots were duplicated and balanced on second pass.

Precinct Ballots: Balanced on first pass.
